

# ROUNDTABLE

The Oxbridge Biotech Roundtable, in conjunction with Nature Biotech and Imperial Entrepreneurs present the first annual

## *Courage in Innovation Award*

Dr. Richard Lerner and Sir Greg Winter

*for their contributions toward the development of therapeutic antibodies*

Dr Richard Lerner is the current President of The Scripps Research Institute and discoverer of catalytic antibodies. He is the chairman of Pfizer's scientific advisory board, serves on the boards of an additional four biotech companies, and has published over 400 research articles.

Sir Greg Winter is a pioneer in antibody therapeutics and serial entrepreneur. His lab first humanized antibodies, work he commercialized as a Founder of Bicycle Therapeutics, Domantis, and Cambridge Antibody Technology. He is currently Deputy Director of the LMB at Cambridge.

*With words from*

*-Susan Searle*

*CEO, Imperial Innovations*

*-Peter Lachmann*

*Cambridge University*

*-Nature Biotech*
